

TOWERS HOSPITALITY

The Towers is known for its hospitality. Either through the Guest Suite that offers friends and relatives of residents a close haven while visiting, or through Sunday brunches, available on the first and third Sundays of each month, the Towers has a reputation of hospitality.

The newest guests arrived as a group of 13 at a time and in varying sizes! The Koi from Clubhouse one are staying at the Towers while their digs are renovated. Upon arrival all is calm. There is no fighting or disturbing behavior. The new arrivals are peacefully enjoying the companionship of the three Koi who live at the Towers. Small groups are clustered together while several fish visit from one group to another. It is all very peaceful and serene.

The Towers is happy to host the Koi while the pond at clubhouse I is remodeled. The remodel is estimated to take two months.
